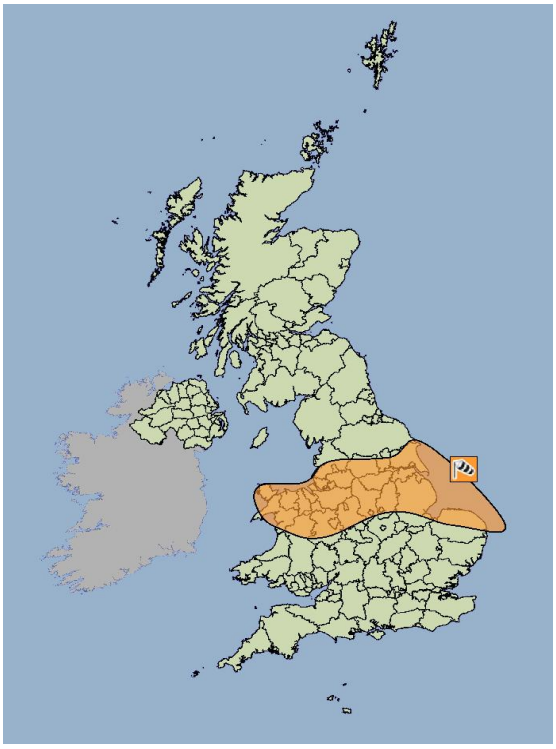
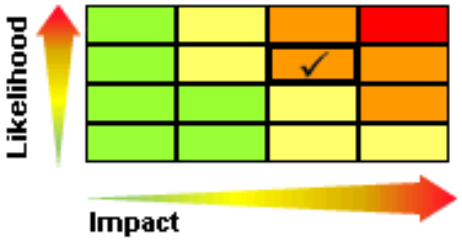
National Severe Weather Warning Service





Chief Forecasters Assessment
The strongest winds are expected to arrive in the west around midnight and move quickly eastwards, with the worst of the winds likely to affect any one place for 1-2 hours. Gusts of 70-75 mph are most likely over hills and western coasts, but even further east gusts of 60-70 mph are possible.

The Met Office have issued an **Amber Warning** of **Wind**

Valid from **00:05 on Wed, 13th Sep 2017** until **06:00 on Wed, 13th Sep 2017**

Storm Aileen will bring a brief spell of very strong westerly winds with gusts of 65-75 mph during the early hours of Wednesday.

Longer journey times by road, rail and air are looking likely, with restrictions on roads and bridges. Damage to trees and perhaps buildings, as well as power cuts are expected. Flying debris and large coastal waves are possible, and these could lead to injuries.
